HEADMASTERS MESSAGE

TO THE CLASS OF "84"

As you, the Class of 1984, prepare to become Alumni of Brighton High School, I urge you to take the opportunity to assess where you are and where you are going. As you begin another milestone in your lives in a very complex society, it is critical that you possess strong values and those skills and attitudes necessary for survival in this highly technological era.

Your sojourn at Brighton High School has been but a small part of your preparation for life. The administration and staff at Brighton High School has been constant in their mission to foster your growth academically and socially. We encourage you to continue to grow through life experiences that lend to the dignity of mankind.

My best wishes for your success and happiness. My formula: hardwork, persistence and a caring for humanity.

Sincerely,

Juliette D. Johnson

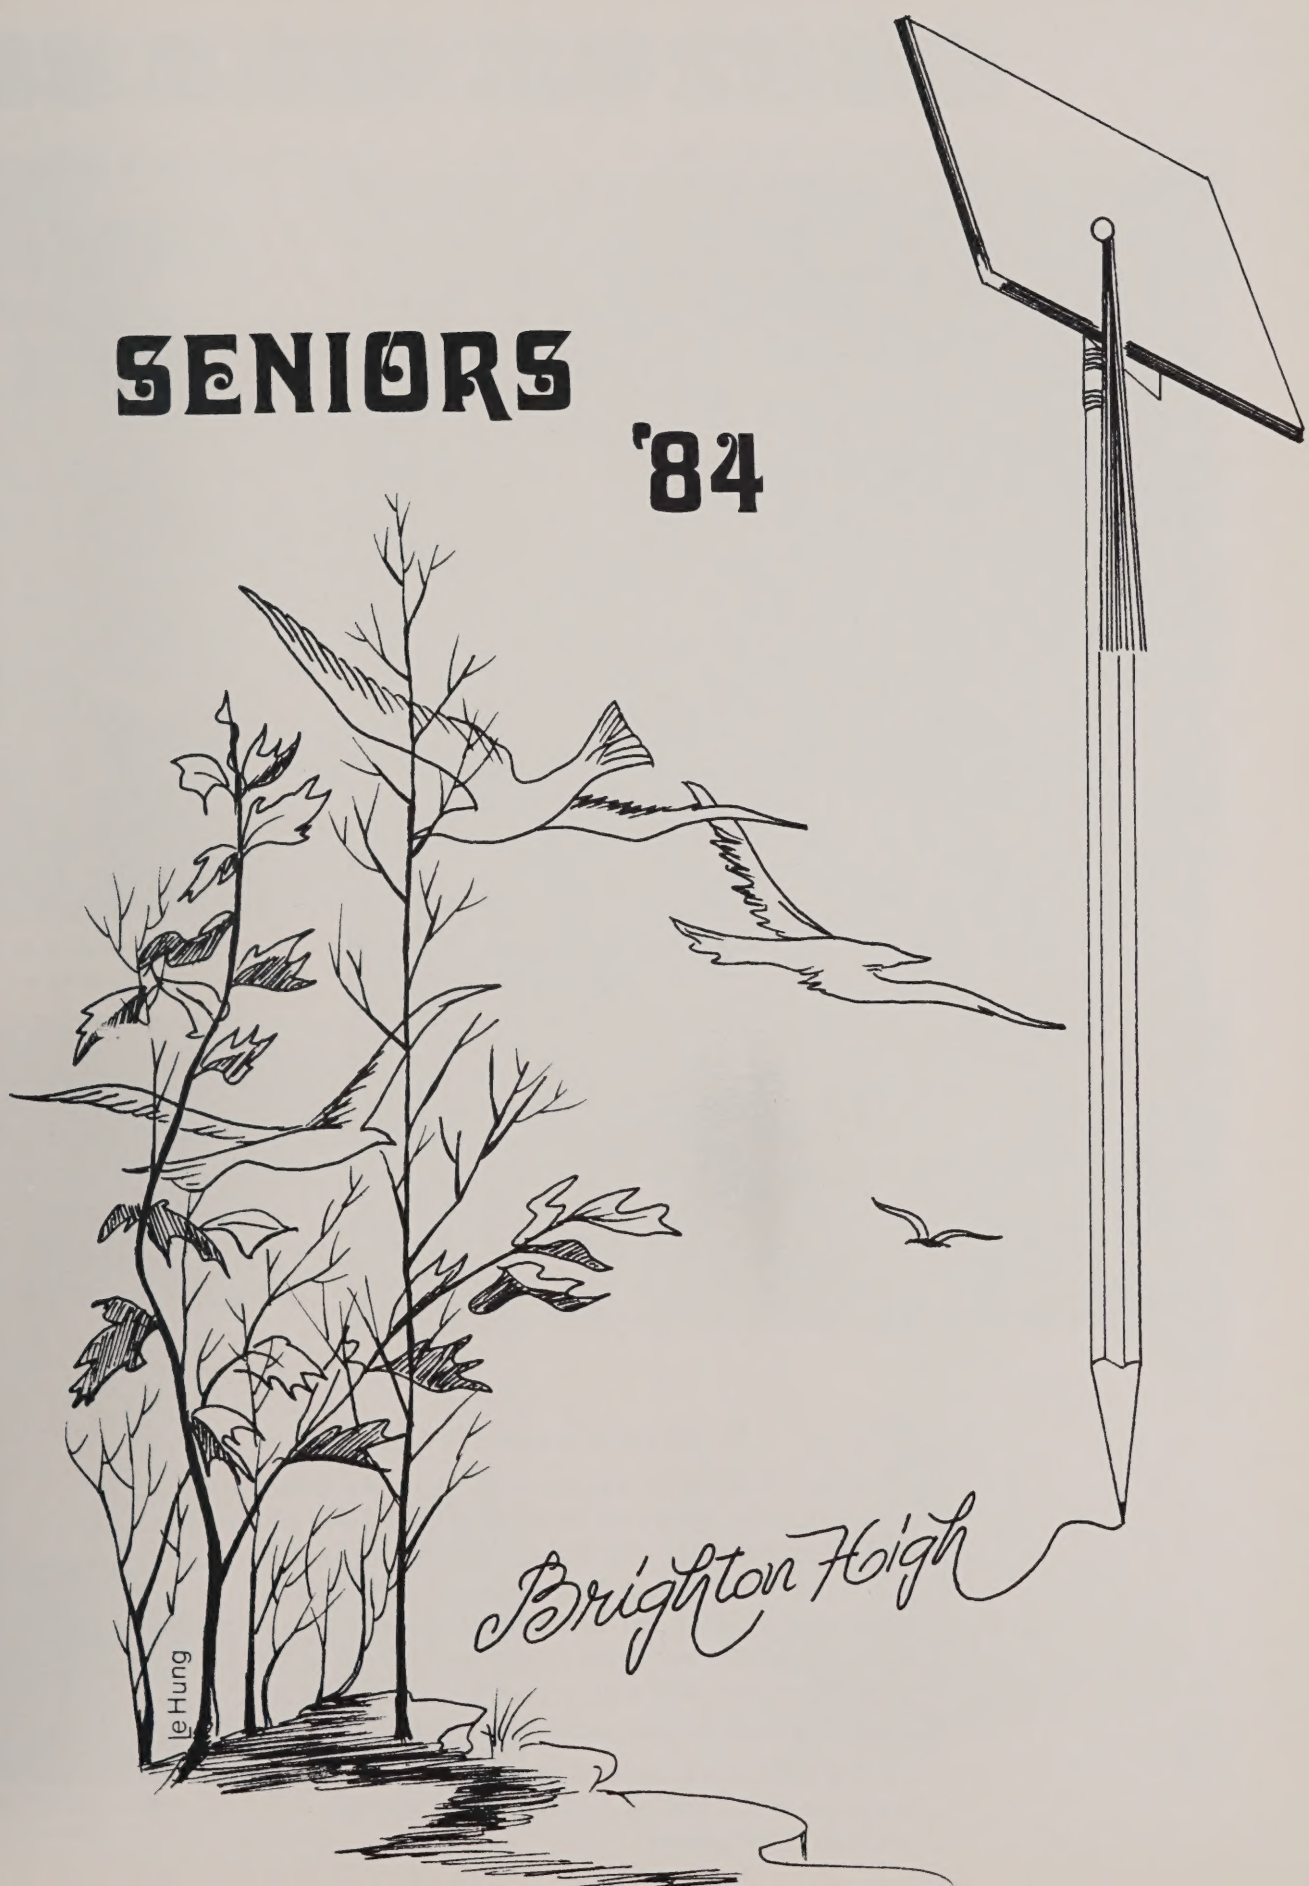
SENIORS '84



SENIOR CLASS

Cheryl L. Patterson,
Senior Class President

From the President's Corner

We, the Class of 1984, have come to the beginning of our future. We leave behind some of our beautiful and dear friends, who have shared our joys and sorrows. Our understanding teachers, who have equipped us with the knowledge to move on and succeed. We will leave with mixed emotions, hope, and determination. We will cry today, but rejoice knowing that we can achieve and succeed.

Let us all move toward our future with pride, because WE ARE ALL GRADUATES OF BRIGHTON HIGH.

MARITZA IN JAPAN

I will always remember my trip to Japan, the friends I made and all the wonderful things I learned. The people I met in Japan were very warm friendly, and helpful. I went with a wonderful group of students who were chosen from different schools in the city of Boston. I left Japan with a warm and happy feeling that I had not only learned about a different country but I had learned about myself.

THE CLASS PROPHECY

As the class prophet, I believe that we, the Graduating Class of 1984, will be the future that shapes, saves, and serves the state and country we live in. During the past four years we have gone to school together as friends and foreigners, learning of each others customs, languages, and of each other's governments. We wonder what the future holds for all of us, and what surprises we'll find.

In the year 2009, we will celebrate 25 years of friendships and relationships, and talk of dreams that have succeeded and those that have failed, but we will come back with pride. Many things will change in the years to come, such as the law. Law firms like Bellany, Simpson, Scott, Thorogood, Esquire will see that justice is upheld. Judge Evans will make decisions over their cases (hopefully for the good). Medical care will be improved with technology and people who care. Doctors Posadas, Patterson, Muller, Gongora, and Snyder with the help of nurses Williams, Walker, Quinones, and Santiago, they will help with major breakthroughs in the treatments of cancer and heart diseases and other illnesses.

Medical technology will soar and with technicians like Deidre Jones things will run smoothly. Computers will help run the world with a lot of programmers, technicians, and people in Electronics. This is a large field and with the help of Linnette Rivera, Tuan Nguyen, Carol Ng, Lucinda Banks, Bik Lam, Maritza Hernandez, Vibora Lim, Carolyn Parker, and Eva Osorio to work the computers and technicians such as Juanita Johnson, they will make things run properly.

Electronics will also prove to be a business that will build and Jarcenas Jean Phillippe, Quang Thoai Tran, and My Thanh Ngyen will make things shine better. Artists like Le Theit Hung will become Picassos of the future. Architects like Irving P. Stallings, James Jones, and Richard Lee will build bigger and better concert halls than the now famous Andrew Carnegie. Music that will make you clap your hands just sitting around listening to great bands like Bradford Brandon's playing the high tech pop music, and disc jockeys like Anthony Alexander spinning those serious tunes of the future.

Secretaries in different fields of work will help record the progress of the work we do; Lisa Warren, Jeradell Gillard, Betsy Sanchez, Sherry Tinker, and Maria Loro will in a sense record the history of progress that the world needs to know about. Even in the world of high tech and progress some will be beautifying people. Stephanie Wilson and Jean Gillis will make names for themselves.

Others want to raise families and work. Kit Wong and Irene Kokovidis will make great mothers in the work force. Paula Hatzieftheriadis will travel around the world with Daniel Tesfai flying the planes of the future. The Class of '84 will also have scholars and professors, like Billy Tapley, Ethel Mata, Lydia Ortiz, Long Tran, and Luz Perez, they will teach our children and prepare them for the year 3000 and beyond.

To the Class of '84,

We extend our sincere apologies to those students whose names or biographies were omitted, misspelled or in any way misrepresented. We did check, double-check and re-check each biography that was turned into us. Please forgive us our errors.

With best wishes
for a happy and successful future,
The 1984 Gothic Staff

We the 1984 Gothic Staff extend a special THANK YOU to the Honeywell Corp., Ms. Joanne Breshia and the many Printers and Typesetters who so beautifully printed our copy despite our patchwork typing and rush order deadlines.

Now there's more!

It's More you.

WE BRING
GOOD THINGS

National Honor Society

When the National Honor Society was established in 1921, the hope was to create an organization that would recognize and foster academic achievement while developing other characteristics essential to citizens in a democracy. Scholarship, character, service, and leadership are ideals that remain as relevant today as they were in 1921.

The National Honor Society is entering an era of new growth. The mood of the country supports Society ideals at a time when technological advances promise ever more challenging decisions for our nation's leaders and for an educated citizenry. The National Honor Society serves as an excellent training ground for the youth who will be the leaders in the years to come.
